## PRIVATE FIT TOURS

Simply put, it is our goal that you travel better and travel well. We understand that it is your trip, your time and your money, and we are excited to collaborate with you to put together the best itinerary for the best possible value. As a starting point, we often provide an itinerary schematic for your consideration and begin the customization process based upon your hotel preferences, tour sights and other features you would like included in your tour.

For example, we can customize packaged meal options or provide pricing without meals and have our adept guides make suggestions for local cuisine alternatives. Additionally, we customize other components of your FIT tour including the length of stay and the type of tour including adventure-tours, agri-tours, cuisine tours, religious tours, life-style tours and alternatives. The hotel selection and choice of travel during high or low season are easily customized for preferential and budgetary considerations.
